

Chairman's Report

The Deputy Chair and I have been extremely busy since the last SSG. I had a very interesting meeting with members of the new parent company, Cavendish Fluor at their Aztec west offices. This meeting was on behalf of all the SSG's.

The Site visits to A and B stations were on 07 August, which I must admit to be very disappointed with the attendance. I must thank the Site Directors and the Communications teams for helping organise this visit.

The Deputy Chair and I attended the official shared transfer event in Manchester on the 1 and 2 of September. This event marked the official handover from Energy Solutions to Cavendish Fluor. It was an honour and I was privileged to sign the new constitution on behalf of the Site Stakeholders. Please see the NDA website for more information.

We have both had meetings with our new Hinkley Point A Site Director, Ron Schroder. We seem to be very lucky and get the best that there is. I would like to wish him all the very best from the SSG and look forward to many years of safe decommissioning. There will be changes, that are inevitable, but we must ensure the set 'mile stones' are kept to or perhaps accelerated.

On the 28, 29, and 30 October we will both be at the National Meeting in Birmingham, if we look slightly jaded at the next SSG please forgive us, we will not be home until late the previous night! A full report on this meeting will be given by Mervyn during the SSG.

I have been nominated to be the National Chairman again but this will be my last as National Chairman. Alled Jones from Wylfa has been nominated as Deputy National Chairman; hopefully he will take over at the next, 2015, NSG.

As I now just complete my 4th year as your Chairman it is noticeable to see just how things have changed and how the workload has increased. I'm not objecting, far from it. As part of the new contract Cavendish Fluor will be undertaking a review in to some of the current strategies, these will be shared with the SSG once any reviews have taken place.
