

Chairman's Report for the June 2018 SSG

I would like to suggest that I/we need to start this report in a different way but I have to say it has been an extremely busy time for both Mervyn and myself since the last SSG in February.

It is fair to say that I did manage to kill two birds with one stone in London on the 14th of March with a meeting with Magnox in the morning followed by a meeting with the MP and a reception with EdFe at the Houses of Parliament in the afternoon. The Magnox meeting was just a catch up regarding the contract and they will be continuing until the contract end.

On the 20th and 21st I attended the NuLeaf meeting in Manchester this was in my position as Deputy Chairman of the Chairs forum. There is a thought that perhaps the SSG's should be represented at NuLeaf events in the future, I need to be convinced of this proposal.

April the 17th and 18th I was again in London to meet this time with the NDA staff, Bill and Jonathan, this was a very good meeting re the proposals for the NDA stakeholder summit in July.. This year we will be in Berkeley, Gloucester. There is a proposal on the Emoluments, more on this when I return.

The Sub group met on the 10th of May at the Stockland Sports Club to discuss the new/changes to the/ our constitution these will be presented at the SSG for approval or not, as you the SSG see fit.

Mervyn and I had a very constructive meeting with the B site Director on the 14th of May. We should have a particular outcome hopefully by the June SSG.

I then travelled to Edinburgh on the 15th and 16th for a reception and meeting at the Scottish Parliament. This was to represent the 'English' SSG's on their socio economics proposals and successes.

Finally, on the 12th of June Mervyn and I attended a meeting in London at the Department of Business, Energy and Industrial Strategy (BEIS) Re the consultation on the final clean up. Mervyn will be updating you and this in his reports.

The next few month do not look any easier than the last few so busy times ahead for Mervyn and myself.

Mike
