

HARWELL SITE STAKEHOLDER GROUP

Constitution – revised May 2018

1. Purpose

The Harwell Site Stakeholder Group is a regular public meeting which is part of the formal arrangements for the interface between the Nuclear Decommissioning Authority (NDA) the site licence company (Magnox) and stakeholders including the local community and the wider Harwell Oxford campus. The SSG will not have a role in the formal decision making in respect of the site activities, but it will be responsible for reflecting local views by inputting advice, expressing views and commenting on the progress of work on site. Campus organisations are invited to provide information about new development and operations on the campus.

2. Terms of Reference

- Provide a forum for receiving regular reports from Magnox, regulators and the NDA, and for discussing issues with them.
- Consider Magnox's emergency plan and response arrangements.
- Commission (subject to NDA approval) and receive reports about decommissioning site activities and their impact on, for example, safety, the environment and health.

- At appropriate times in the meeting as agreed by the Chairman, members of the public may raise relevant questions.
- To augment routine reporting and monitoring mechanisms the SSG may set up sub-committees/groups; hold special meetings or workshops to explore particular issues in more detail and with a wider local audience if required.
- The SSG may invite experts to bring expert knowledge to help the work of the SSG or its sub-groups, remunerating where appropriate.
