

Office for  
Nuclear Regulation

# ONR Strategy 2020 to 2025

‘Shaping our strategy’ – inviting views from our  
stakeholders

## **Our Mission**

**“To provide efficient and effective regulation of the nuclear industry, holding it to account on behalf of the public.”**

## **Our Vision**

**“An exemplary regulator that inspires respect, trust and confidence”**

1.

Influencing improvements in nuclear safety and security

2.

Inspiring a climate of stakeholder respect, trust and confidence

3.

Getting the best out of our people

4.

Developing a high-performing, sustainable organisation

# A changing operating environment

- Ageing reactor fleet
- Sellafield and decommissioning
- Geological Disposal Facility
- Security Assessment Principles
- New Build investment
- Responding to new and changing regulatory asks, e.g. GDA for SMRs
- Safeguards
- Innovation in how we regulate, and how we regulate innovation & new technologies

1. What is working well that we should keep doing?
2. What do you think ONR's top regulatory priorities should be in the 2020s?
3. What do you think is missing from ONR's current Strategic Plan that needs to feature in our new Strategy?

Office for  
Nuclear Regulation

**Thank you and next steps**
