

Magnox

Magnox Ltd is owned by the Nuclear Decommissioning Authority

Bradwell LCLC, March 2021

Sohail Ashraf, Site Director

Safety and Environment

- There has been one first aid incident since the last report
- Recent site safety campaigns have included control of substances hazardous to health (COSHH), life critical events, musculoskeletal awareness, a “safe return” briefing after Christmas and a decommissioning mindset
- Covid-19 safe controls have been introduced
- We have recently introduced Covid-19 lateral flow device testing

Safety and Environment

- Draft Radioactive Substances Compliance Assessment Report (RASCAR) received – liquid, believed to be rainwater, discovered in September 2019 in a container of low level waste consigned from Bradwell to off-site waste treatment facility. We are reviewing learning accumulated following the event, the Root Cause Investigation (RCI) and wider arrangements for Magnox.
- Ponds vault water ingress – ground water leak into the vaults complex at Bradwell site detected in September 2020. A repair to be implemented from 15 March 2021.

Covid-19

Magnox support to our communities has included:

- Providing 150,000 items of PPE for health care workers
- Volunteering – a quarter of our workforce volunteered in our communities (more than 5,400 hours volunteered)
- Donating food from our canteens to food banks
- Making more than £300,000 available to support local authorities and community groups respond to the crisis

Care & Maintenance: Waste

Since March 2020:

- Five shipments of MOSAIK[®]s received from Dungeness A
- Total weight of intermediate level waste resin received – 5,990kg

Care & Maintenance: Update

- Security remains on site
- Routine maintenance continues
- Small number of portacabins/containers on site

Care & Maintenance: Annual inspection
