NDA Update

Mission Progress Report

- Published in November – can make hard copies available
- This report demonstrates how much progress has been made in our mission since 2005, and how much further is left to go over the next 120-plus years.
- Progress and goals have been aligned with those in Strategy 4, published in March 2021.

NDA Update

Business Plan 2022-2025

- Sets out main activities to advance clean-up and decommissioning work over the next 3 years
- This consultation ended on 31 January
- We will forward feedback in due course

NDA Update

NDA to decommission Advanced Gas Reactors

- Directed by government to take on future ownership of seven EDF AGR sites for decommissioning
- Magnox Ltd will be responsible for decommissioning the seven sites following defueling
- Testament to skills, knowledge and experience in NDA group – and government confidence in NDA's capability
- National Audit Office published a report on the agreement on 28 January. The Public Accounts Committee convened a hearing on 7 January and NDA CEO David Peattie was called to give evidence.

NDA Update

Nuclear Waste Services

- NDA new waste division launched on 31 January.
- The last of the 'four pillars' to come into being.
- Nuclear Waste Services brings together Radioactive Waste Management (RWM), Low Level Waste Repository (LLWR) and the NDA's Integrated Waste Management team
- Its Executive Committee is drawn from the existing three organisations
- CEO is NDA's Corhyn Parr
- Likely to be little immediate change for the majority of employees
- Departments and functions will look to integrate over time.
